THE NAVAL VETERANS

PREPARATIONS FOR BIG G. A. R. DELEGATION FROM KANSAS.

Admiral Schley and Gen. Corbin Express Interest in the Coming Reunion-Briefs.

General Ell Torrance, commander-in-chief of the Grand Army of the Republic, has transmitted to local encampment headquarters copies of a general order issued from Minneapolis August 7. Much of its subject matter pertains to the forthcoming encampment. After announcing the arrangements for the Benjamin F. Stephenson monument, previously printed in The Star, General Torrance makes the follow-

"As heretofore announced, the thirtysixth national encampment G. A. R. will be held in Washington, D. C., during the week commencing October 6, 1902.

"The parade and review will occur on Wednesday, October 8, and the sessions of the encampment will be held on Thursday and Friday following.

"The use of the new public printing building, now nearing completion, has been granted by joint resolution of Congress for free sleeping quarters to members of the G. A. R. during the meeting of the encampment, so far as its then state of completion will permit. From the number of applications now filed it is evident that more accommodations will be required to meet the convenience of the comrades. To meet this demand it may become necessary to establish a camp, which will be determined before the next general order is issued, and the comrades duly advised.

"Applications for free quarters must be forwarded to the adjutant general through the assistant adjutants general of the various departments prior to September 1 next. Comrades furnished free quarters will be required to supply their own blan-

"Departments and posts are reminded that for the transportation of advance committees to secure quarters and for the transportation of bands of music to the encampment the railway fare will be one-half the individual rate established for the encampment. One committee only will be recognized from each post or department and must not consist of more than three persons traveling on one ticket. This arrangement applies to the Central Passenger Association and trunk line territory." Then follow the paragraphs concerning the encampment which were published in the local papers several days ago. This order also announces the appointment of about 140 aids for the encampment. For Kansas Delegation.

Fred. Jackson, a prominent G. A. R. man of McPherson, Kan, announces the preparations being made in that vicinity in a circular, a copy of which has reached encampment headquarters, and which runs as

"McPHERSON, Kan., August 1, 1902.

"A general invitation is extended to all who desire to take advantage of the low rates and excellent accommodations furnished to go with the excursion that leaves

McPherson October 2, 1902, arriving in Washington October 4, 1962. "We guarantee cars from McPherson through without change. Rates are the lowest. Accommodations strictly first-class. Letter From Admiral Schley.

Admiral W. S. Schley has written Chairman B. H. Warner from the military barracks at Plattsburg, N. Y., under date of August 9, as follows:

"I am much indebted for the honor shown me by the citizens' executive committee in making me a member of the reception committee on the occasion of the national en-campment, Grand Army of the Republic. I am uncertain whether I can be in Washington on this occasion, but if I am I shall be

A letter was also received from Adjutant General H. C. Corbin. It was addressed to Secretary Harry Bulkley, and read as fol-

"Absence from the city has prevented me from making earlier reply to your note of the 18th of July. I feel very much honored in being designated as a member of the reception committee in connection with the forthcoming encampment of the Grand Army of the Republic, and while I am glad to accept a place on the committee I regret that my absence in Europe during the time of the encampment will prevent of my active participation. Something of a hornet's nest seems to have been stirred up by the recent announcement of Chairman E. B. Hay of the music committee that patriotic airs should not be played by the bands in the parade to the exclusion of all others, naming particularly ragtime. Among the protests that have been received was the following, which came this morning from Miss Nannie G. Davis, secretary Lincoln Woman's Relief Corps, No. 6, Department of the Po-

"At the regular meeting of Lincoln W. R. This meeting of the citizens' executive committee is called for the discussion of the program after it has been practically determined upon by General Torrance, his chief aids and the officers of the local ex-ecutive committee. It is expected all the national officers of the G. A. R. indicated will be present.

Legion of Loyal Women.

The Legion of Loyal Womer, held a lawn fete committee meeting at G. A. R. headquarters Saturday evening, presided over by the chairman, Mrs. Harriet L. Vining. The fete, which is to be given Friday and Saturday evenings of this week, has been engaging the attention of the patriotic women of Washington for the last month, and this was the last of the arrangements for its success. The table committees appointed by Mrs.

Music in the Air.

At the meeting of Lincoln Corps Friday evening a spirited discussion occurred on the subject of music for the encampment parade. It is said some fifty members of the corps participated in a very animated manner, protesting against the proposition to have only ragtime music or recent popular airs played by the bands in the grand review of the veterans. The corps then ordered a memorial to be sent to Chairman Warner, signed by 150 members of the corps, which is the largest in the Department of Potomac. In this letter the corps declared that it would be very bad taste to deprive the veterans of the pleasure hearing their old-time music in the parade, and suggested that the bands be instructed

STORM WAS WIDESPREAD. Trains Delayed by Washouts and Mails Were Late.

The storm that visited Washington last night was part of a veritable cloudburst that swept portions of the Atlantic coast. The damage in this city was slight. From points north, however, come tales of havoc wrought. Pennsylvania railroad traffic was delayed a number of hours by washouts near Trenton, N. J., and the New York and Philadelphia newspapers and mail were more than three hours late reaching here. Advices from Trenton were to the effect that at the Clinton street station, at mid-

night, the water was forty inches above the tracks, something almost unheard of before. The damage to buildings in that city was For three hours two rivers of turbulent water swept across the lower part of Camden and Atlantic counties and all railroad

ttraffic between Atlantic City and Philadel-Phia was cut off. A cloudburst had followed a heavy down-pour of rain. The dam at Kirkwood Lake had partly collapsed, allowing an immense sheet of water to rush through the narrow valley, carrying destruction in its wake. So far as is known there was no loss of

DESIGNATED AS ROSS ROAD.

Tribute Paid the Late Commissioner of the District.

Following up the motion made by Commissioner Macfarland at the last meeting of the board of control of Rock Creek Park, held on August 1, the board has designated the curved roadway leading along the hillside between the mouth of Broad Branch and the Military road, in Rock Creek Park, having a length of about 8,000 feet and running in the same general direction as Beach driveway, as "Ross road" in honor of the memory of the late Com-missioner John W. Ross, who was presi-dent of the board of control of Rock Creek Park from its organization to the time of his death on July 29, 1902 her this thoroughfare has been completed

This thoroughfare has been completed and has a good macadam roadway on its southern half, which has also the steepest stade. The northern portion has been marked out on the ground and is now being opened for use as a bridle path until Congress appropriates funds for its completion to the Military road. For about three-fourths of its length it affords a good view of Rock Creek and Reach driveway, view of Rock Creek and Beach driveway, having an elevation of about offe hundred feet above them. Starting from the Military road and driving in the direction of Broad Brench the grades will occasion Broad Branch the grades will occasion very little climbing, as they generally fall toward to the south.

Forty-Eighth Annual Convention of the I. T. U.

MEETS IN CINCINNATI

REPORTS OF THE PRESIDENT AND TREASURER.

Address of Welcome by the Acting Mayor and Members of the Union

CINCINNATI, August 11 .- The fortyeighth annual convention of the Interna tional Typographical Union began its session of four days here today with all the 365 delegates present. Among those in attendance were many women, here for the first convention of the ladies' auxiliary. Addresses of welcome were delivered by Acting Mayor Charles J. Christie, Edmund O'Connell, chairman of the local committee on arrangements, and Alvin McReynolds, president of the Cincinnati union, to which President James T. Lynch responded.

A resolution of sympathy and support of the United Mine Workers in their anthracite strike was adopted. Most of the time was devoted to the reading of the report on law and President

Lynch's supplemental address on this re-port. Consideration was postponed until tomorrow. The annual reports of the offi-cers were then made, after which the convention adjourned until tomorrow.

President Lynch's Report. President Lynch in his annual report said, in part:

"The greatest problem of this or any other age is said to be embraced in the scientific creation of wealth and its scientific distribution. Capital is endeavoring to solve the first part of the question, and the combination of wage earners, the labor organizations, the latter. To this effort the International Typographical Union has contributed. The high place of the printing trade, the prosperity of its followers and the constantly increasing remuneration which they are receiving attest in a measure our success. Happier homes, more comforts, greater education, shorter hours of labor and more time for mental development-all these add to the welfare of a country and its people and afford an example for the encouragement of the millions who toil.

"The year just closed has been remarkable for peace and tranquillity in our industrial relations. The employer has been brought to realize the value of conciliation, a doctrine preached for years by our inter-national, and that policy has been more than ever in evidence in the settlement of disputes. Wage scales have been increased in the jurisdiction of many unions. There has been but one serious strike, that occurring in Rouse Point, N. Y.

Review of Year's Work.

"In reviewing the entire international field and taking into consideration the many betterments secured, and without friction, the membership has reason for congratulation. The new year opens well and every effort will be made by your officers to avoid conflicts and at the same time con serve the interests of local unions. While strikes will be avoided where possible, yet if entered into they will be prosecuted with all, the vigor that can be exercised and will not be abandoned until the unfair employer is made to feel the terrible cost attendant upon arrogance and a refusal to accord just conditions.

"During the year just closed several important newspapers and many book and job offices have been unionized. It has been maintained that the employment of union maintained that the employment of union labor is a business proposition, and that industrial peace, the largest possible output, efficiency, order and a large field from which to select employes, were all embraced in an agreement with our local

As to Political Affiliation. "In the report of your delegates to the American Federation of Labor there occur two recommendations to which your president desires to direct attention. These relate to the autonomy and political propositions. They should receive careful consideration by the members and the delegates. Thus far the International Typographical Union has steered a conservative

course. It has avoided all the 'isms,' panaceas that are confidently recommended as cure-alls for industrial ills. It is not your president's intention to advise the membership of the convention either for or against any particular political policy. His personal opinion is that the wage earners of this country will eventually work out their political salvation, and that they will do it without adherence to or the adoption of the principles enunciated by any par-ticular school of thought. The advice of last year, in the remarks on this subject, 'that we should confine our action to the admonition to study all, with the hope that

wise selection may be made,' is as sound

Relations With Publishers. "As far as our general relations with the American Newspaper Publishers' Association are concerned it can be said that they

are satisfactory. "The arbitration idea has many strong supporters among the book and job em-

ployers.
"Contrary to the idea, frequently expressed, that the limit of machine introduction has been reached, these devices continue to increase both as to number and pattern. Rumors of inventions that will again revolutionize the printing trade frequently reach us, but thus far they have been without foundation.
"The practice of securing industrial peace

through contracts running from one to five years has become very popular with local unions and employers. Hundreds of these covenants are now in existence. It would be well for the convention to recommend to our subordinate unions that wherever possible contracts be executed, and that these contracts contain arbitration provisions that will guarantee the peaceable operation of industrial departments under the terms of the contracts, and make as remote as possible chance for friction and

"The desire on the part of our book and job members for an eight-hour day is be-ginning to manifest itself, and is receiving encouragement in many jurisdictions. That the eight-hour day will eventually be established as the maximum for our entire membership goes without challenge. We trust that it may come peaceably, but in any event, come it must.

Report of Treasurer. The report of Mr. J. M. Bramwood, sec-

retary-treasurer, showed that the receipts from June 1, 1901, to May 31, 1902, were \$151.141, and the expeditures, \$145,760, the balance on hand being \$38,072. The present membership is 39,711-typographical, English membership is 39,11—typographical, English and German, 37,966; photo-engravers, 476; mailers, 780; type founders, 407; newspaper writers, 73. There were twenty strikes in all during the year, nine resulting in victory for the union, three being lost, and eight in progress. Convention of Stereotypers.

CINCINNATI, August 11.-The first convention of the International Stereotypers and Electrotypers' Union was called to order here today by International President James J. Freel of New York city. About fifty delegates from all parts of the Union and Canada were present. Heretofore the stereotypers and electrotypers have been a stereotypers and electrotypers have been a division of the International Typographical Union, but since the last meeting of the larger body they have organized independently, though a close connection is maintained with the parent body. Acting Mayor Christic delivered a welcoming address. The committee on resolutions dedress. The committee on resolutions de-sired time to report, and the convention
